Abstract

12
13 One or two sentences providing a **basic introduction** to the field, comprehensible to a
14 scientist in any discipline. Two to three sentences of **more detailed background**,
15 comprehensible to scientists in related disciplines. One sentence clearly stating the **general**
16 **problem** being addressed by this particular study. One sentence summarizing the main
17 result (with the words “**here we show**” or their equivalent). Two or three sentences
18 explaining what the **main result** reveals in direct comparison to what was thought to be
19 the case previously, or how the main result adds to previous knowledge. One or two
20 sentences to put the results into a more **general context**. Two or three sentences to
21 provide a **broader perspective**, readily comprehensible to a scientist in any discipline.

Super Fun Times

#Introduction Sometimes we want to cite papers (Syrett, Lu, & Parrish, 2024).

Methods

We report how we determined our sample size, all data exclusions (if any), all manipulations, and all measures in the study.

Participants

Solely the Chicks that were ebing observed over “n” amount of Time

Material

Procedure

Data analysis

We used R (Version 4.4.1; R Core Team, 2024) and the R-packages *dplyr* (Version 1.1.4; Wickham, François, Henry, Müller, & Vaughan, 2023), *forcats* (Version 1.0.0; Wickham, 2023a), *ggplot2* (Version 3.5.1; Wickham, 2016), *lubridate* (Version 1.9.3; Grolemund & Wickham, 2011), *papaja* (Version 0.1.3; Aust & Barth, 2024), *purrr* (Version 1.0.2; Wickham & Henry, 2023), *readr* (Version 2.1.5; Wickham, Hester, & Bryan, 2024), *stringr* (Version 1.5.1; Wickham, 2023b), *tibble* (Version 3.2.1; Müller & Wickham, 2023), *tidyr* (Version 1.3.1; Wickham, Vaughan, & Girlich, 2024), *tidyverse* (Version 2.0.0; Wickham et al., 2019) and *tinylabels* (Version 0.2.4; Barth, 2023) for all our analyses.

Results

(ref: chick- caption) Each chick was weighed every other day from birth to day 20 and on day 21. This plot shows the weight of each chick (y-axis) for each day they were

measured (x - axis). Each point is one measurement.

Figure 1. (ref: chick- caption)
